

General Information

The Summer Residents Association [SRA] Leadership Team is continuing to plan and re-plan, address issues and communicate to our membership as well as others with a general interest in SRA what may be able to happen this summer. Communicating with both groups is critical from an organizational perspective and will serve us well as we make important decisions in the upcoming weeks. Those decisions may be forced on us by factors beyond our control or ones we make ourselves based on monitoring and assessing the evolving situation within the city and county and state in which our organization operates.
